EMERGENCY OR ASSISTANCE NEEDS

If you need First Aid assistance, or to report an incident or maintenance concern, please call Mountain Patrol at 541-693-0911. Patrol rescue may be time consuming in remote areas.

EASIER TRAILS

- **FTL (FIRST TIMER LINE)**
Length: 0.7 miles Average Slope: 7%
Our easiest trail, FTL is a wide, machine-built flow trail that has just enough dips, rolls, turns and jumps to help you progress as a beginner. It is specifically designed to mimic what you will encounter on our other downhill trails. Start here and progress to lower Lava Flow once you build some confidence.
- **SWIZZLE STICK** from Sunshine lift
Length: 0.12 miles Average Slope: 11%
Lava flow connector with beginner turns and flow.
- **LAVA FLOW** from Sunshine lift
Length: 0.8 miles Average Slope: 6%
Lower Lava Flow is our widest flow trail with rolling terrain that best caters to riders who aren't yet ready for the upper mountain. Lower Lava Flow features slightly more difficult turns, dips and jumps than FTL to improve skills and confidence. Progress to Blade Runner or upper Lava Flow.

MORE DIFFICULT TRAILS

- **LAVA FLOW** from Pine Marten lift
Length: 3.9 miles Average Slope: 7%
Our signature flow trail, Lava Flow is a wide and long machine-built trail that begins in the lava rock and transitions into the dense hemlock forest. Jumps are built so that riders can get air or roll over them.
- **HANGER**
Length: 0.6 miles Average Slope: 9%
This narrower, hybrid, single track flow trail features steeper, banked turns and is a fun alternative to middle Lava Flow.
- **BLADE RUNNER**
Length: 0.4 miles Average Slope: 11%
A technical intermediate single track. Riders should be comfortable on a narrow track with steep, tight corners before riding this trail.

MOST DIFFICULT TRAILS

- ◆ **RATTLESNAKE**
Length: 1.2 miles Average Slope: 12%
A technical single track trail crossing a natural half pipe. Expect sharp berms & natural rock drops through tight trees.
- ◆ **BIG WOOD**
Length: 0.3 miles Average Slope: 21%
A rake it in and let it ride kind of single track with wood features, steep pitches and a drop option at the end.
- ◆ **LAST CHANCE** enduro trail
Length: 3.8 miles Average Slope: 7%
Our signature enduro trail is more difficult than its average slope suggests. The technical single track transitions to a machine-built flow trail lower down.

FOR YOUR INFORMATION

- To participate in the activities associated with the Mt. Bachelor Bike Park, you must:
- Wear a helmet
 - Purchase a lift ticket
 - Wear closed toe shoes
 - Have functioning front and rear brakes
 - Duel suspension bikes highly recommended
- Use this terrain at your own risk:
- Mt. Bachelor Bike Park terrain may contain: jumps, hits, wood and dirt ramps, banks, logs and other constructed or natural features
 - Mt. Bachelor is not responsible for damaged equipment
- Trail Closure Notice:
- Some trails may be closed for construction. Visit www.mtbachelor.com for current trail status. Operations may be suspended or closed due to lightning, heavy rain, ice or snow.
