

PERFORMANCE RENTAL EQUIPMENT

(All Group Rental products include overnight storage)

Performance Packages are smooth and very versatile, handling every type of snow condition – from hard-packed snow or bumps to powder.

With the Performance Packages, you can choose between the types of skis and have the flexibility to swap them out when snow conditions change.

PERFORMANCE SKIS:

Salomon Q-90: All mountain confidence and exploring inspiration. Q-90 is for skiers looking to explore new terrain and develop their off-piste skills, with a light weight wood core, tip rocker and forgiving early rise tail.

Salomon Q-88 Lux: All mountain confidence and exploring inspiration for women. Q-88 Lux is for skiers looking to start exploring new terrain and develop their off-piste skills, with a light weight core and forgiving early rise tail.

Salomon X-Drive 7.5: On-piste stability and confidence with all-mountain possibilities. Enduro LX 750 gives skiers confidence on groomers and the possibility to ski the whole resort.

PERFORMANCE SNOWBOARDS:

Burton Cruiser: The next board in the progression. Like the LTR, it is flexed and proportioned to facilitate turning while minimizing falls. But unlike the LTR, this is the perfect board for exploring the whole mountain after a couple lessons. With a directional shape, the Cruiser is the ideal choice for the first full year of a rider's career.

Burton Blunt Freestyle: This board is effortless to ride thanks to its V-Rocker design. The rocker helps keep the contact points off the ground and lifts the edges for a looser and softer ride. Underfoot, the playful feel, steady stability, and a buttery scoop tip and tail gives it a more progression-friendly, park-oriented ride.

DEMO EQUIPMENT

Whether you're looking to demo skis, boots, or a snowboard in order to find your best match to buy or wanting to treat yourself to the perfect tool for a super deep day of powder or ripping on groomers, the Demo Center can hook you up. Mention your group name for \$5 off your demo order. 2017-2018 rates out soon!

The Demo Center offers equipment selected to perform in Northwest snow conditions. Try up to 3 different pieces of equipment all in the same day. Two days of Rental fees paid may be credited towards new equipment purchased during the current season (one day towards equip. on sale)
