### **BY THE NUMBERS: MT. BACHELOR'S NEW 'CLOUDCHASER' CHAIRLIFT**

**BEND, Ore. (April 21, 2016)** – When complete, the new Cloudchaser detachable quad chairlift will be the first new chairlift installed at Mt. Bachelor since the replacement of Pine Marten Express in 2006, and the first completely new chairlift providing access to previously unserved terrain on the mountain since the opening of Northwest Express in 1996.

The name Cloudchaser was conceived by Tom Lomax, Mt. Bachelor's director of mountain operations. It pays tribute to the mountain's unique weather patterns and the phenomenon whereby approaching clouds from the west tend to dissipate and disappear altogether as they wrap around the summit and pass to Mt. Bachelor's east side.

Lift name:	Cloudchaser
Lift manufacturer:	Doppelmayr
Lift type:	High-speed, detachable quad
Horizontal length:	6,576 feet
Vertical rise:	1,448 feet
Uphill capacity:	2,400 people per hour
Number of chairs:	141
Number of towers:	21
Construction start date:	Weather/snowpack dependent
Anticipated completion date:	December 2016
Additional skiable acres:	635
Additional groomed runs:	6.2 miles/36 acres
Total skiable acres:	4,318

**About Mt. Bachelor:** Mt. Bachelor is the largest ski resort in the Cascade Range, offering 3,683 acres of lift-accessible terrain. The mountain features 10 lifts, seven of which are Express Quads, plus two tubing lifts and two beginner carpets and an average annual snowfall of 462 inches. Mt. Bachelor also features 5 terrain parks, a superpipe, 56K of groomed and tracked cross country trails, snowshoeing, tubing, sled dog rides and summer attractions including downhill mountain biking.
